ZOOMERCE WEBSITE

Zoomerco wanted us to create a website that would promote their brand new fashionable and trendy products to existing users, while also introducing themselves to potential members. The main challenge was that they needed a mobile responsive website where potential users can use it via their mobile. Our starting point for the design was to review our existing mobile website and to use it as a base for our responsive design. We were able to streamline and prioritize a content strategy based on how our users actually interact with the website.

Technology: HTML5, CSS3, JQUERY

Version Controls: No found!!

CLIENT FEEDBACK

“ I emailed Source Soft with hopes to work with them on our new racing website to help keep fans and sponsors up to date. I viewed his portfolio, and really liked what I saw. This gave me all the more confidence that the team will be right for the job. They were highly skilled and have different ideas always coming up, and was really open to suggestions. ”
