CANDRCARPETANDRUGS

With more than thousands of products to manage C&R needed a comprehensive new web application that could be customized to meet the needs of individual users. They asked us to redesign their platform and provide a more flexible CMS that allows for simplified product categories, a streamlined checkout process, and automated sales fulfillment. We migrated their existing website from OpenCart to Magento for total control over the sales process. The new site and our SEO upgrades brought an increase in organic search results.

Technology: WordPress, MySQL, HTML5, CSS3

Version Controls: SVN
