TIE BREAKER

Tie Breaker is a social interactive polling app that allows users to post questions (text and photo) from a wide range of categories and topics, along with two options to choose from and in which other users can vote. This Android app can help users decide where to eat, what to buy, where to go and much more. Once voting is completed, users can see the results based on demographics, such as age and gender. Source Soft designed and developed this app using Android Studio and SDK tools.

Technology: Objective-C, Xcode libraries, Android Studio

Version Controls: SVN

Trina   USA

CLIENT FEEDBACK

" Woo Hoo, it works! People can get the link to download the app if I share a question to Facebook. That's perfect!! Thank you all so much. We had a 'Launch Party' yesterday to kick off our app. This has been an exciting journey for all of us. I know a lot more about what to expect when coming up with an app design. Can't wait to do another one!! "

We are commited to convert your ideas into online business.
